

SPECIFICATION AMENDMENTS

Please replace the paragraph running from line 21 to line 30 with the following:

The present application is related to pending US patent application 09/916,095 and to US patent application 09/614,504 filed 11 July 2000, entitled "System and method for accessing web content using limited display devices," with claims of priority to provisional application 60/164,429, filed 09 November 1999, entitled "Method for accessing network data on telephone and other limited display devices." The entire contents of these applications is incorporated by reference herein.
